

MANAGED PRINT

Making Print even Better

solid performance, always

Managed Print improves the ease of use and quality of printing for norwix's printing systems, by recognizing the exact ink and cartridge type of any cartridge that has been placed into the system and configuring the system to maximize performance and print quality.

With Managed Print you can be assured that what you need to print is exactly what you get – first time, every time.

- Improved ease of use – no need to program ink drive parameters
- Print drive parameters pre-set to optimize each inks performance and efficiency
- Print resolution up to 600 dpi
- Ink tracking and cartridge type awareness
- Enables full functionality of the software
- Ability to fine tune drive parameters for specialized applications
- Expanded maintenance and recovery features to keep cartridges working in the most difficult applications

Lifetime Warranty

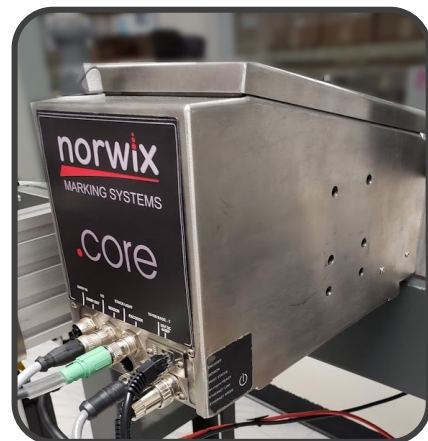

A guarantee of reliability is what your business needs today. And a company to stand behind its words.

norwix does just this by offering a genuine Lifetime Warranty on its hardware. If there is ever a problem, we will replace it free of charges for the Lifetime of that product whether 1 year or 10 years from now.

That's total peace of mind

norwix provides a Lifetime Warranty for its hardware products and warrants that each product is to be in good working order for the product's lifecycle whether purchased from norwix or an authorized norwix business partner.

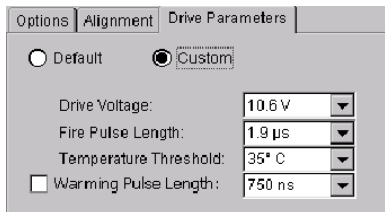

Should the product fail to be in good working order, norwix will repair or replace this product at no charge.

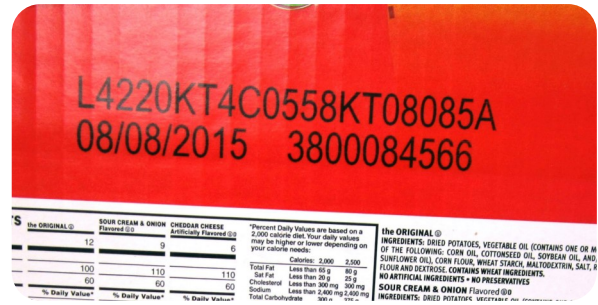

Predefined Print Parameters

ensuring highest quality print possible

As soon as a Managed Print cartridge is placed into an norwix printer, it recognizes the exact ink and type of cartridge. Pulling information from an internal database it automatically configures a wide variety of firing parameters to suit that specific ink, giving you the highest quality print.

Based on norwix's many years of practical experience in the field of printing and the extensive knowledge of its technical staff, this knowledgebase is available to you for the first time, helping you to print what you want, when you want.

Automated Self Checking

keeping uptime at a maximum

With a Managed Print ink in place, every one of the 300 nozzles in each cartridge is individually checked and the results displayed in a simple format, enabling you to quickly and precisely deal with any issue that might have an impact on your print quality.

jet Engine	Pen A	Pen B	Pen C	Pen D
Pen Enabled:	●	●	●	●
Test Status:	●	●	●	●
Cartridge	Ink Used (mL):			0.00
Pen Ink Status:	●	●	●	●
jetfuel	Ink Remaining (mL):			42.00
Pen Installed:	●	●	●	●
	Spot Color Red			

Extended features for Managed Print also include:

- Set purging characteristics for optimized printing at all times, including time based and micro purge, reducing nozzle clogging
- Adjustable firing voltages for changing printing characteristics giving complete control of start up and run print quality.
